Introduction

1. This Memorandum of Understanding ("MoU") establishes a framework for cooperation and information sharing between the Isle of Man Gambling Supervision Commission (the "GSC") and the Alderney Gambling Control Commission (the "AGCC") collectively referred to as (the "Parties") throughout this document.
2. It sets out the broad principles of collaboration and the legal framework governing the sharing of relevant information (*including intelligence*) between the Parties.
3. The shared aims of this MoU are to enable closer working between the Parties, including the exchange of relevant information, to assist them in discharging their respective regulatory functions and duties.
4. The MoU is a statement of intent that does not create any legally binding obligations, confer any rights, or supersede domestic laws and regulations.
5. This MoU is not intended to:
 - a) restrict the exercise or discretion which the applicable law requires or allows the Parties to exercise;
 - b) create any legitimate expectation that the Parties will do any act or will refrain from doing any act; or
 - c) prevent the Parties from complying with any law which applies to them, for example, applicable statutory or procedural restrictions on disclosure or obligations under applicable data protection legislation in force.
6. The Parties have determined that they do not exchange sufficient quantities of personal data to warrant entering into a separate data sharing agreement, but this will be kept under review.
7. This MoU sets out a legal basis for information sharing, but it is for each party to determine for themselves that any proposed disclosure is compliant with the applicable law.
